Summary

Software Developer with nearly **3 years** of experience taking features from **ideation to production**, shipping them live for real users. Sole frontend developer of **three production applications** in EdTech (PrepLap) serving **1,000+ active users**, with prior experience in on-demand services (GenieHub). Skilled in owning the full delivery cycle across requirements, UI design, API integration, and deployment with hands-on expertise in React.js, Next.js, Redux, and API-driven product engineering, using AI tools to speed up component development, debug faster, and streamline code workflows.

Technical Skills

Languages	JavaScript (ES6+), TypeScript, C++, HTML5, CSS3, SQL
Frameworks & Libraries	React.js, Next.js, Node.js, React Native, Redux, Tailwind CSS, Material UI, FastAPI
API & Integration	REST APIs, JWT Authentication, Session & Token Handling, Role-Based Access Control, Razorpay
Databases	PostgreSQL, MongoDB, MySQL
Tools & Deployment	Git, GitHub, Figma, Jira, Postman, Netlify, Vercel, DNS Configuration
AI Tools	GitHub Copilot, ChatGPT, Claude, Gemini, Antigravity

Experience

e-Beta Innovations LLP Jan 2025 – Present
Software Developer, EdTech (PrepLap) *Remote, India*

- Sole frontend developer for **three production applications** (Student, Admin, and Instructor), driving each from feature ideation and requirement discussion through UI implementation, API integration, and live release. Scaled the platform to **1,000+ active users** and **100+ scholarship recipients**.
- Delivered the **Student application** (preplap.in), the platform's primary revenue and engagement surface:
  - **Auth & Profile**: Secure signup, login, and password recovery with session and token-expiry handling. Profile editing, transaction history, and invoice downloads.
  - **Test Engine**: Timed test attempts with question navigation, anti-cheat security controls, and auto-submission. Results with performance analysis, peer comparison, and attempt history.
  - **Scholarships**: Registration, dedicated scholarship test platform, earnings and claims, Hall of Fame, certificate generation, and public certificate verification.
  - **Classes & Content**: Class listings, student-wise monthly calendar with upcoming-class alerts, purchases, demo requests, and course content with pre-lecture notes, recordings, and downloads.
  - **Payments & Growth**: Razorpay integration for subscription plans with coupon discounts, plus a Refer & Earn system with unique referral codes, wallet ledger, and withdrawal claims.
- Built the **Admin console** (controltower.preplap.in) for platform operations and internal teams:
  - **Content & Assessments**: Question bank with exam, subject, and topic hierarchy. Mock, scholarship, and Olympiad test management with full CRUD, status controls, search, filters, and pagination.
  - **Access Control**: Student and employee management across admin, marketing, content, and support roles, with a granular **API-level permission manager** governing per-user endpoint access.
  - **Finance & Reporting**: Scholarship disbursement to awardees, subscription and coupon management, referral transactions, API logs, and transaction reporting with graphs and multi-field filtering.
- Developed the **Instructor portal** (instructors.preplap.in) enabling educators to publish and monetise courses:
  - **Course Authoring**: Course, unit, and lecture workflows with notes and recording uploads, plus **one-click course cloning** to spin up a new course without re-entering content.
  - **Revenue & Learners**: Enrollment listings with subscriber details, earnings and payout accounts, certificate issuance on completion, and demo-request handling.
- Proposed and shaped **API contracts, response structures, and filtering strategies** with the backend team. Owned **Netlify deployments**, environment configuration, custom domains, and production build troubleshooting.

GenieHub Pvt. Ltd. Jan 2024 – Dec 2024
Frontend Developer, On-Demand Services *India*

- Built and maintained React-based features and reusable UI components for an on-demand services platform, integrating REST APIs to deliver customer-facing booking and service-discovery modules.
- Collaborated with design and backend teammates to refine requirements, debug frontend issues, improve responsiveness, and ship releases on schedule.

Education

Sardar Patel Institute of Technology (SPIT), Mumbai University 2022 – 2024
Master of Computer Applications (MCA), ***CGPA: 8.7/10*** *Mumbai, India*

B.N. College, Patna University 2017 – 2020
Bachelor of Computer Applications (BCA), ***76.75%*** *Patna, India*

Achievements

- Secured **99.76 percentile** in Maharashtra MCA CET 2022 (AIR 58).
- **5-star rating in C++** and certified in Java (Basic) on HackerRank.
